

ОРГАНИЗОВАННАЯ КУЛЬТУРНОСТЬ

** Without aggression, but with expression*

COMMERCIAL OFFER

Production & Promotion — Services and Prices

Websites, bots and promotion for theatre and arts projects — a current list of services, prices, and terms of cooperation.

Prices and terms are valid through the end of December 2026

CASE

For a circus performer, a full package was put together: a personal website (RU and EN), brand identity, documents for organisers, and Telegram/VK bots for handling requests. Not a concept — a working package, taken all the way to deployment.

SERVICES & PRICING

Website development — **from ₺30,000**

Based on materials the client sends over (logo, portfolio, photos, video). A landing-style site: about the client, services, gallery, booking, dedicated pages for key formats. Includes a full set of documents for the site and bot (privacy policy, cookie policy, bot terms of use, an offer agreement, and more).

Bots (Telegram and VK) — **from ₺10,000**

Requests and reviews in one place — instead of scattered messages in DMs.

Auto-posting via a Telegram bot — **from ₺10,000**

A dedicated system for automatically publishing posts on a schedule — no manual posting across several social networks each time.

Building a custom analytics system — **from ₺5,000**

A custom analytics backend in the site's admin panel with a table in Google Sheets, plus Yandex Metrika and VK Pixel integration.

Ongoing management & promotion — **from ₺30,000 / month**

Publishing, content, running ad accounts — by an agreed plan.

HOW IT WORKS

1. Brief — what to prioritise, what materials already exist, budget and timeline.
2. Structure and a first draft — one section is agreed on as a sample before the rest.
3. Building out the agreed structure — with interim check-ins along the way.
4. Deployment and handover — the working result, source files, and instructions for upkeep.

Timeline: Up to 1 month — by agreement with the client and depending on the complexity of the brief.

TERMS OF COOPERATION

- Reporting — receipts as a registered self-employed contractor (самозанятый, Russia)
 - Payment for one-off services — 50% upfront, 50% on completion. For ongoing management & promotion (a monthly service) — 50% at the start of the month, 50% at the end.
 - Revisions are accepted within 14 days of presenting the result — anything after that is a separate arrangement
 - Rights to the code and design transfer to the client on full payment; Konstantin keeps the right to show the completed work in his portfolio and case studies
 - At the client's request — a signed contract and monthly acceptance certificates for services rendered
 - Flexible schedule, by agreement; Saturdays and Sundays are always off
 - For ongoing cooperation — at least one in-person meeting a month; for a single stand-alone service — an in-person meeting for that service
 - Mandatory creation of working accounts for the project — at minimum Google, Yandex, GitHub.com, the domain registrar's site (e.g. reg.ru), Bitwarden, and others as needed — with round-the-clock access for Konstantin. Logins and passwords are agreed with the client; the password vault is kept in Bitwarden.
 - Mandatory creation of a working Telegram chat for the project
-

NECESSARY SERVICES

Separate from the fee — services needed to set up a working environment for the project. Some are paid by the client directly, others as the workload grows.

- From ₺200 — a domain from any registrar (agreed with the client)
 - At least ₺2,000 — a Claude.com subscription
 - As workload grows — a Yandex.Disk subscription and paid hosting
 - When promotion is ordered — Yandex Direct, from ₺5,000 a month added to the balance (excluding the 22% VAT rate in effect at the time)
 - The list isn't fixed — other subscriptions and services may be needed as the project goes on; each one is added only as needed and agreed separately, before payment
-
